FROM "TEDDIE'S BROWNIES"

Colonel Wood Pleased with New Mexico Volunteers—How the Rough Riders are Getting On.

Ready for the Front—Personal Notes and Items.

The following letter is self-explanatory and is published to show how unjust, false and uncalculated were the remarks of some of the Democratic newspapers of New Mexico, especially the Albuquerque Democrat, concerning the volunteers from this territory.

Hon. M. A. Otero, Governor of New Mexico. In Camp near San Antonio, Tex., May 14, 1898.—My Dear Governor: I have the honor to acknowledge the receipt of your letter of May 6, 1898, and would state in explanation of my delay in replying, that I have been overruled with work and busy from early morning till late at night attending to the purchase of horses and the receiving and issuing of supplies, etc.

It gives me great pleasure to say that I am very much pleased with the New Mexico contingent and feel sure that they will do most excellent service. We are rapidly getting the men into shape and in a very few days will be able to take the field. I heartily concur in your remarks concerning Major Hersey and the officers generally. I trust that before we leave here we shall have the pleasure of being inspected by you.

Thanking you very much for your great interest and kindness and for the personal attention which you have given to the selection of your quota, I have the honor to be very respectfully yours, LEONARD WOOD, Col. 1st Regt. U. S. Vol. Cavalry.

Wearing the Brown.

Special Correspondence of the New Mexican. San Antonio, Tex., May 14, 1898.—Equipments are being distributed, and a great number of the volunteers are fitted out in their fatigue uniforms. By tomorrow, it is expected, all the boys will be wearing the brown.

We have a great number of visitors from the city. They come daily in carriages, horseback, and afoot to view, with wondering eyes, Roosevelt's rough riders. It seems as though they think we are a collection of straws and pebbles, animals, captured in distant horizons of unknown fauna. Men, women, children, girls and boys crowd around the mess tables and gaze with watering eyes and fearful mouths upon the delicious viands furnished by Uncle Samuel.

For the last few nights the guard house has been doing a rushing business. It has been filled to overflowing with the heroic volunteers who have received "hole-in-the-fence" passes. Last night there were three young men in leggings who had "spotted" the routine "during the evening" and were returning singing, with great tenderness, "Take back what you promised me," and looking, with aching head and rheumy eyes, afar into the future. They had just reached the hole in the fence when dark forms heaved up in front of them, behind them, all around them, and simultaneously commanded the young men to halt. Then they were marched with great tact down to the guard house where they lingered, shivering and repentant, until early in the morning. They are now older and wiser soldiers.

Lieutenant Chas. C. Ballard, of Troop H, received a present of a beautiful black horse from Mr. J. Phelps White, of Roswell. The lieutenant is, as he should be, very proud of the gift.

Captain Geo. Curry, of Troop H, bought a bay horse to take to Cuba.

Lieutenant W. R. Kelly, of Troop H, received an elegant sabre given him by the members of the Otero Guards, of Las Vegas, by which body he was captain prior to his appointment as lieutenant of troop H.

The Wyoming and Colorado volunteers are expected to be on the march by tomorrow.

Two troops of the 8th U. S. cavalry, which were stationed at Fort Sam Houston, left today for Galveston.

The buying of horses for the volunteers is steadily going on. Within a day or two there will be a sufficient number purchased. Owing to the demand for horses they have reached a very high price. Horses that could not be sold two years ago for \$20 per head are now bringing \$80 and \$90 apiece.

It is very uncertain when we shall leave here, but it is expected that the volunteers will leave for Galveston the latter part of this week.

"QUICK."

Roosevelt has Arrived.

Special Correspondence to the New Mexican. San Antonio, Tex., May 15.—Lieutenant Colonel Roosevelt arrived here today from Washington. Indications are that the regiment will be moved to Galveston as soon as fully equipped. This will be the case by the 20th of this month.

The rough riders are armed with two 38-calibre pistols and a Krag-Jurgensen saddle rifle. There is a rumor that the regiment will be moved to Galveston as soon as fully equipped. This will be the case by the 20th of this month.

Yesterday evening the mayor of the city, preceded by a band and accompanied by a great crowd of citizens, came down to the barracks to view the cow-punchers. While the boys stood at attention the mayor struck up the familiar air of home, and as the notes of "Sabre las Olas" died away there were many sad hearts among the New Mexican boys.

Last night the young men of the city gave a hop at the beer garden, and just beyond the barracks. The Brownies had about it, and straight away they armed themselves with hole-in-the-fence passes and proceeded to take in the balls. But alas! the elite of San Antonio never once turned an admiring eye upon the new uniforms. Gradually the dancers were left to themselves, and the boys returned home through the fence.

The Sabbath is being observed in various ways, according to the dispositions of the individuals. Many of the boys are napping—peas are very plentiful; some knitting, reading, writing or sleeping, while many are making bargains with the old clothes wagon.

Observance of Memorial Day.

At the meeting of Carleton post, Grand Army of the Republic, held last night a committee consisting of Francis Downs, John P. Victory and S. H. Day was appointed to make all the necessary arrangements for the proper observance of Memorial day.

Memorial day, with full power to appoint a committee, was adopted and a resolution was adopted to trade to take charge of the floral decorations, and it was also agreed that the post should attend the usual Sunday evening Memorial service at the Presbyterian church on May 30, with the Rev. J. H. Moore officiating as the pastor for the occasion.

A Hundred Reasons.

Can be given by Stuart's Dyspepsia Tablets are the best and most effective cure for every form of indigestion.

They are in Tablet form which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to the taste.

After each meal dissolve one or two of them in the month and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermented, half digested food.

They increase flesh by digesting flesh-forming foods.

Stuart's Dyspepsia Tablets are the only remedy designed especially for the cure of stomach troubles and nothing else.

In the injunction case of the Mary Mining & Smelting company of Cerrillos against R. Y. Anderson et al., wherein Judge Parker has granted a temporary injunction restraining Anderson et al. from working the Modoc group of mines in the Organ mountains and has appointed Thomas Brannigan as receiver of the property, the matter came before Judge Parker at Silver City on Tuesday last. The defendants desired the injunction dissolved and the receiver discharged. After hearing some of the testimony and points in the case the court continued the injunction in force and kept the receiver until a final hearing of the matter, the date for which has not yet been set.

Judge S. B. Newcomb appeared for the Mary Mining & Smelting company and Hon. T. B. Catron for Anderson et al.

The case of the Albuquerque Land & Irrigation company vs. T. C. Gutierrez et al., involving the right to build the low line canal and take water from the Rio Grande, came up for a hearing before Judge Crumpacker at Albuquerque yesterday morning. The defendants, having given notice that they would apply for a change of venue, presented affidavits signed by a large number of well-known citizens, alleging a state of public opinion to exist in Albuquerque which prejudiced their rights to a fair and impartial trial by the court.

The plaintiff filed objections to the sufficiency of the motion for a change of venue and contentions that under the statute the court was powerless to grant a change of venue for the reasons assigned in the motion. The court held otherwise and the plaintiff then filed counter affidavits, signed by the directors of the company, which, while they admitted the existence of public opinion in favor of the ditch, stated that the merits of the case were so palpable that no other conclusion could be reached. The court held the motion of defendants well taken and that they were entitled to a change of venue under the statute.

The parties agreed upon a place where the cause might be taken, but as they could not agree, the court made the change of venue to Santa Fe county. A transcript of the case was ordered transmitted to the District court here within ten days so as to expedite the hearing.

The Dewey Day committee on arrangements met last evening at General Bartlett's office, Judge A. L. Morrison in the chair. A large concourse of ladies and gentlemen were present.

The following additional committees were then appointed:

It was decided to adopt the change in date.

The meeting brought forth the fact that the members of the various committees were working faithfully and that a great amount of enthusiasm was being aroused. A big celebration will result from their efforts.

The meeting adjourned until 7:30 o'clock Saturday evening, when all committees will report, and the program will be outlined for publication.

Judge Booth Injured.

Yesterday Judge W. T. Booth, representing the Maxwell Land Grant company at Elizabethtown, and Dr. T. M. Michaels, a physician and mining man of that region, while driving to Taos met with an accident that resulted in the dislocation of Judge Booth's left shoulder and severe sprains to Dr. Michaels' arm and hand. When within ten miles of Taos, some part of the harness broke, and the team became frightened and ran away. Both men were thrown violently to the ground. There was no doctor in Taos at the time, so a courier was dispatched for Dr. Martin, who has been visiting in Santa Fe for the past few days. Judge Booth is 66 years old and it is feared his recovery will require considerable time. It is not known whether the concussion due to the fall resulted in any serious internal injuries.
